

IIoT World Tour 2017

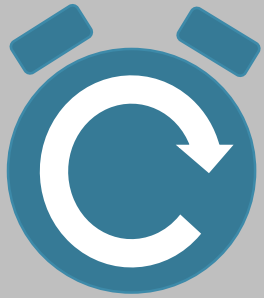

Singapore, 15th September 2017

Henning Banthien, Secretary General, Plattform Industrie 4.0

Stephen Mellor, Chief Technical Officer, Industrial Internet Consortium

Shaping the digital transformation together

Since
March 2016

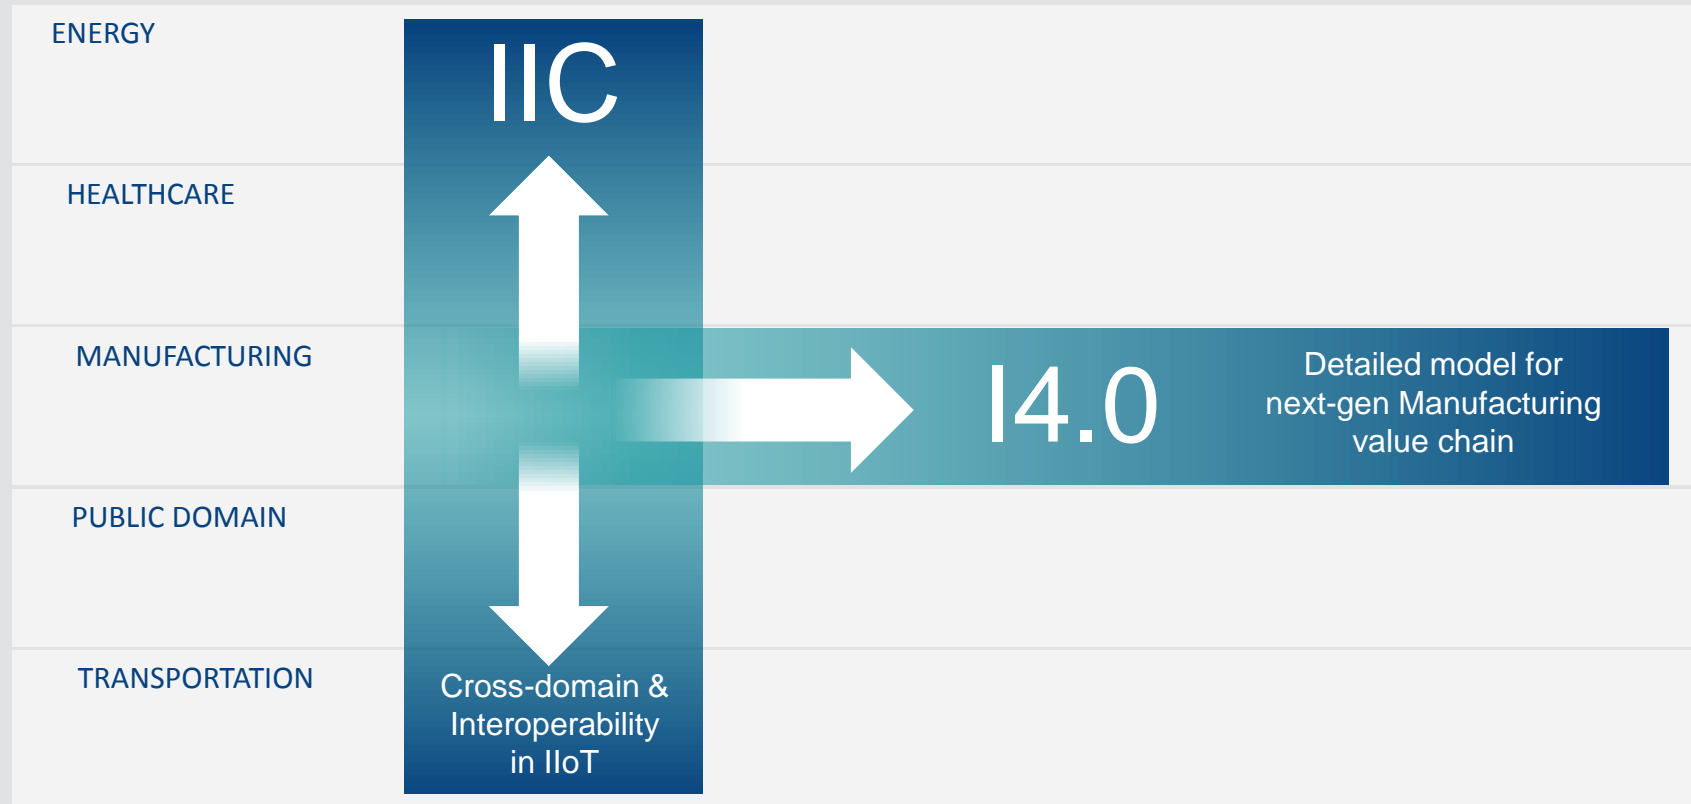

1
roadmap

6 Joint
Working
Groups

Domain Focus Areas are complementary

The cooperation focuses on:

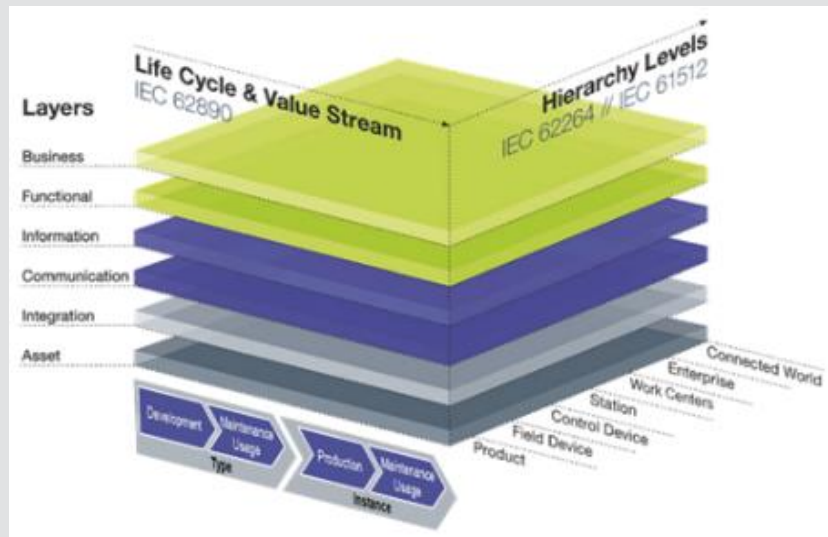

- 1 Products, Production Systems and IIoT Solutions – The Lifecycle Perspective
- 2 Standardization: Harmonization of Reference Architectures
- 3 Testbed Collaboration
- 4 Standardization – Requirements Towards Standardization and Interoperability
- 5 Security
- 6 Governance

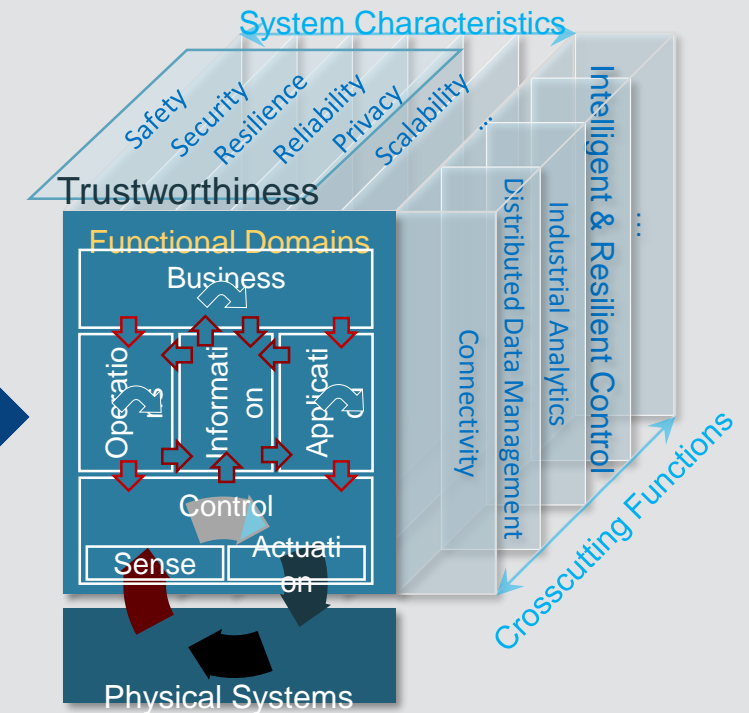

A clear mapping between both architectures will enable cross-domain interoperability

RAMI4.0

IIRA

Results of the Cooperation

Joint Publications

of IIC and Plattform Industrie 4.0
