

JOIN THE REVOLUTION

... AND AN INNOVATIVE ECOSYSTEM

SHAPE THINGS TO COME

The Industrial Internet Consortium represents an energized COMMUNITY at the forefront of the FOURTH INDUSTRIAL REVOLUTION. IIC members are conceptualizing, rigorously testing, deploying, and bringing viable industrial internet products, services and processes to market.

Together, we are laying the foundation for the future.

BUILD TESTBEDS

OUR TESTBEDS ARE WHERE THE INNOVATION AND OPPORTUNITIES OF THE INDUSTRIAL INTERNET ARE INITIATED, THOUGHT THROUGH AND RIGOROUSLY TESTED.

The outcomes from testbeds are the cornerstones of a feedback loop from concept to reality and back to guidance for further innovation. They uncover the technologies, techniques and opportunities essential to solving problems that benefit businesses and society. Our testbeds cover:

INDUSTRIES

- Aeronautics
- Agriculture
- Buildings & Infrastructure
- Energy & Utilities
- Healthcare
- Manufacturing
- Transportation & Logistics
- Others

HORIZONTAL TECHNOLOGIES

- New Business Strategies
- Industrial Analytics
- Connectivity
- Interoperability
- Security
- More
